Experience

SquadMinds Private Limited

January 2024 - August 2024

Intern

Mohali

<https://www.squadminds.com/>

I worked as an intern where I gained hands-on experience with the MERN stack, which includes MongoDB, Express.js, React.js, and Node.js. During this time, I developed and enhanced my skills in web development, particularly in building full-stack applications. I also worked with core web technologies such as HTML, CSS, and JavaScript, and learned how to integrate front-end and back-end components effectively.

Wiznox Technologies

August 2024 - Present

React Developer

Mohali

<https://wiznox.com/>

I am currently working as a Next.js developer in a company, where I have contributed to various projects using modern front-end technologies. Through this role, I have strengthened my ability to build scalable, high-performance web applications and implement efficient front-end logic. This experience has enhanced both my technical proficiency and problem-solving skills in real-world development environments.

Education

Rayat Bahra University

July 2022 - July 2024

Master of Computer Applications (MCA)

Post Graduation

8.89

<https://rbuchd.in/>

CGC Jhanjeri (Mohali)

July 2018 - July 2021

Bachelor of Computer Applications (BCA)

Graduation

8.84

<https://www.cgc.ac.in/>

Skills

Programming Languages : HTML, CSS, Javascript, Mongodb,

Libraries/Frameworks : React, Nextjs, Express.js, Mongoose, Bootstrap, Tailwind, Redux, React-redux, UI MUI Redux,React hook form, yup validations ,Fluent UI

Tools / Platforms : git, Linux,

PROJECTS / OPEN-SOURCE

EXPENSE-TRACKER | Link

HTML, CSS, Javascritp, localStorage

Developed a responsive web application using HTML, CSS, and JavaScript for building a modern and user-friendly interface. Dynamic Data Handling (Local Storage). Integrated form validations to ensure accurate input from users.

Purpose: Expense Tracker web application provides users with a convenient platform to track their expenses, manage budgets, and analyze spending patterns effectively

RENTAL SERVICE | Link

HTML, CSS, Tailwind,React, Express.js, mongodb,paymentGateway

Developed a full-stack rental service application using React.js, Tailwind CSS, MongoDB, and Express.js. Implemented user authentication using JSON Web Tokens (JWT) for secure access to the application. Integrated a payment gateway to facilitate transactions between users.

Implemented features allowing users to list items for rent, specifying availability and rental duration. Utilized MongoDB for efficient data storage and retrieval, ensuring scalability and performance.

Designed a responsive and user-friendly interface using React.js and Tailwind CSS, enhancing the user experience. Collaborated with team members to plan, develop, and deploy features in an Agile environment, ensuring timely delivery and high-quality code.
